

## Megadimension Neptunia VII

World in CPU Shift period where citizens are starting to look for new CPU's rather than staying with their own. New CPU's appearing, ancient evil stirring, lots of thinly veiled yuri, the usual fanfare.

Origin:

Refugee

Scientist (???? - May not be applicable)

Politician/Leader

Adventurer

Race:

Human

Monster

Fairy

Console Patron Unit

CPU:

Personality Swap - A secondary personality in your CPU form. Not so much a separate personality so much as your true thoughts and feelings brought to the forefront.

Power Swap - Able to swap between using Shares and Negativity. Has an unfortunate effect on your personality when swapping.

Divine Swap - Usurping and stealing the faith/followers of other deities - Human origin?

CPU Dimension - A personal dimension created by your power.

OR

Power Of Heart - The ability to create things from your desires. Essentially influence reality with your thoughts. Simple uses of this power could lead to the creation of monsters or people. Fully sapient beings with their own thoughts and emotions. The greatest expression of this power is the potential for the creation of an entire dimension, though this would require a truly staggering desire and power to bring about.

Monster:

Handsome Voice - Don't judge a book by its cover, they may surprise you. You have a very nice voice. The voice of a handsome person. You may look like a fish with a human face, but you sound like a hunk. The juxtaposition between the two can throw people off.

Power Of Faith - Based on the monsters being able to generate faith? Though that was partly because of Kurome/Uzume IIRC

Space Hopper - The ability to jump between dimensions/worlds or move other things between them.

VR Dimension [400]

- A special dimensional space created by the threads of different worlds mixing together. It creates a type of Virtual Reality, where one has a chance to physically interact with the characters of the gameworld that they are playing. To them, you belong to a Heavenly Plane, a dimension on a higher level of existence they would not normally be able to interact with. These interactions do not last more than a few minutes before the characters have to return to their worlds, but once you've seen someone once, you are very likely to see them again soon.

Power Of One [600] - Based on Kurome. A large amount of power despite not having any active believers etc. Even without any Shares you'd be stronger than many Goddesses with a nation of believers behind them.

Sister Dimension! [???) - Sectioning off a portion of your shares to create a sister/clone of you. Kurome/Uzume

Smooth Molasses [???) - Super nice sounding voice. You can just tell the owner of that voice is handsome! Or elegant. Attractive.

Faith For The Faithless [???) - Gaining Shares from monsters, beasts, and other creatures. Not limited to just humans.

Birth From Obsession [600] - Create a dimension based on your inner-most obsession/desires.

Older Sister [???) - Mature bod, very pronounced curves or muscles.

Million Arthur [???) - Cloning stuff, million arthur

Magical Mage Of Magic [???) - Magic stuff

Warrior Of Justice! [???) - Fighting skill

Items:

Sharicite [???) - Crystallised shares. Literally solid faith.

Weapon Selection [???) - Weapon of choice. Can be odd such as a microphone.

Collab Craziiness - Over the years in their dimensional hopping adventures the Neptunia crew have visited all manner of different worlds and universes: Worlds where anthropomorphised battleships war with each other, worlds where ninjas battle in outfit-tearing conflicts, and worlds where a small elite crew is all that stands between apocalyptic forces and all that is beautiful in the world. By choosing this option, you can make some or even all of these events canon. Every once in a while you will find yourself flung by a dimensional anomaly into a new but oddly familiar world.

Notes:

For the purposes of Collab Craziiness, a list of known Neptunia crossovers includes but is not limited to:

- Honkai Impact
- Azur Lane
- Fairy Fencer
- Senran Kagura
- Atelier
- etc
