

How to make a stapler airplane

Fold the body of the pattern along the fold lines in the order of the numbers to create the shape. Be careful not to fold the mountain folds or the valley folds in the wrong order.

Once you have properly folded the creases on the body, attach the head to the tip.

The head part

Align the center with the tip of the body and place it over it.

Fold the tip of the body in along the crease, creating a mountain fold.

Turn it over and look at the stapler mark.

Fasten with a stapler.

Fold the small rectangular part along the center fold line.

Fold it in half and place it on the bottom tip of the body.

Put it on top,

Where the stapler marks are

Fasten with a stapler.
